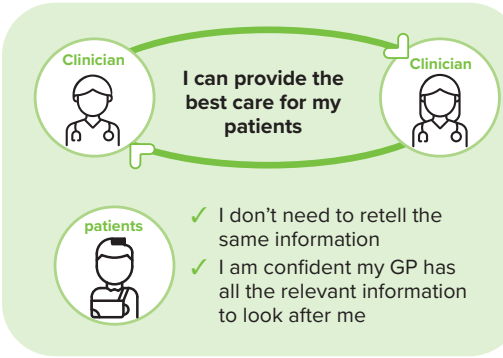
More connected and seamless care with **Secure Messaging**



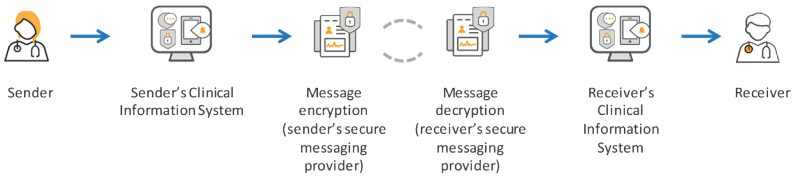
SA Health is **transforming the clinical handover of patient care** between hospitals and community health care practitioners. **Secure messaging** provides a more efficient and reliable alternative to fax, post and ShareFile.

Clinicians

- ✓ have the best possible view of patient information
- ✓ receive clinical documents faster
- ✓ documents received are complete (eg. all pages of discharge summary)

Practice Managers and staff

- ✓ simple set up with existing systems
- ✓ less time scanning and faxing documents
- ✓ less time involved in error handling and follow up



Secure Messaging is software that enables instant and safe communication between health care providers.
