

# Approved wastewater products in South Australia

## Greywater Treatment Systems

Manufacturer	Model	Capacity (EP)	Description	DHW Approval No. & expiry	Certification No. & expiry
<b>Suncoast Waste Water Management</b> Kunda Park, QLD <a href="https://www.ozzikleen.com.au/welcome.htm">https://www.ozzikleen.com.au/welcome.htm</a> <a href="mailto:info@ozzikleen.com">info@ozzikleen.com</a>	Ozzi Kleen GTS10	10 EP	Single tank, polyethylene, vertical orientation. Contains a primary settlement/aeration chamber, and a pump/disinfection chamber. Accepts greywater from bathroom and laundry fixtures only (not kitchen). Irrigation of effluent via surface or subsurface irrigation permitted. Reuse within a building for laundry reuse or toilet flushing is not permitted.  Servicing frequency: 3 monthly	WWP-20073  20 July 2025	SMKH20282 (Current certification against Domestic Greywater Treatment Systems Accreditation Guidelines by NSW Health Department – February 2005)  20 July 2025

**Please note:** Greywater diversion devices no longer require a Department for Health and Wellbeing product approval, and will no longer appear on the approved products list. Greywater diversion devices must be certified under the [WaterMark Certification Scheme](#) before they can be approved for installation by the relevant authority through an application for on-site wastewater works approval.
