

creating opportunity

Government of South Australia
Department of Trade and Economic
Development

Health in All Policies Conference

20 November 2007

Sources of Economic Growth

www.southaustralia.biz

- Get more resources
 - Population growth
- Use more of our available resources
 - Participation increase
- Use our resources more efficiently
 - Productivity improvement

Economic Growth

www.southaustralia.biz

Growth in Output = Growth in LP + Growth in LS

3.5 = 1.7 + 1.8

3.5 = 3.1 + 0.4

Some Issues

www.southaustralia.biz

- Population Growth
 - What growth is required?
 - How to maintain current momentum?
 - Overseas migration driven
 - How important is natural growth?

Some Issues

www.southaustralia.biz

- Participation Rate
 - Lags the national average
 - Impact of aging population
 - What do we need to do differently?
 - The disengaged
 - Older workers

Some Issues

www.southaustralia.biz

- Productivity
 - How can we maintain or improve our performance (reform fatigue)?
 - Productivity impact of bringing marginalised into workforce.

Holistic Policy Development

www.southaustralia.biz

- 10 SASP Interactions
 - 7 involve Growing Prosperity targets
- Health in All Policies
 - There is a convergence of economic, social and environmental
 - Key dependencies exist and change with changing circumstances
 - HIAP provides a mechanism to initiate some early thinking and action
