COVID-19 UPDATE 51: MONDAY 22 JUNE 2020

Easing of aged care COVID-19 restrictions

Changes to COVID-19 aged care restrictions mean residents are now be able to leave aged care facilities and return without restriction.

Children of any age can also now visit residential aged care facilities. If they are aged 6 months and over, they must have had their flu vaccine.

Residents can have up to two family members, friends or volunteers providing a social support visit each day, and aged care facilities can now approve additional visits where this is appropriate or necessary.

Anyone planning a visit will need to meet the following criteria in order to protect vulnerable people within our community.

To be permitted to visit you must:

- > have documentation of your flu vaccination
- > have no symptoms of illness
- > have not travelled overseas or to certain states and territories in the last 14 days

Find more information and the new [Direction](#) on the [SA Health website](#).

South Australian COVID-19 Cases
