

**Period: 2018 to 25 November 2023**

	2018	2019	2020	2021	2022	2023 YTD
HIV*	31	30	29	21	22	30

**Legend:**  
YTD Year-to-date  
**\*Note:**  
New cases of HIV are those with a first ever diagnosis in South Australia. Cases who were first diagnosed overseas and subsequently underwent confirmatory testing in South Australia continue to be recorded and reported annually, but are not included in weekly surveillance updates as of March 2022.

Provisional data issued by Communicable Disease Control Branch SA Health and therefore subject to revision.
