Flinders Medical Centre Hospital Entrance and Parking Information

The Northern Entrance is the main hospital entrance at FMC for the duration of the redevelopment works underway.

The construction works include a seven-storey Acute Services Building, providing an additional 98 clinical spaces at FMC.

The new building is being built infront of an existing building at FMC and will connect internally – see map of reverse side.

Where should I park or be dropped off / picked up?

The Care Park (Western) Car Park offers parking for 30 minutes free of charge (after this time standard parking fees apply). If needed, immediate drop off and pick up is available at the Northern Entrance – see map on reverse side.

If travelling by public transport

Public transport has also undergone some changes – see map on reverse side.
