

## Projects granted a waiver of consent 2022

In certain circumstances, it is justifiable to grant a waiver of consent, as opposed to obtaining informed consent from research participants. Conditions are outlined in Section 2.3.10 of the National Statement on Ethical Conduct in Human Research (2018).

Under section 2.3.12 “it is the responsibility of each institution to make publicly accessible summary descriptions of all research projects for which consent has been waived”. The waiver of consent may cover the collection/use of part or all of the data/information required for the project. Waivers of consent were granted by the Southern Adelaide Clinical Human Research Ethics Committee for the following projects in 2022:

OFR	Research Study Title	Ethics Approval Start Date
8.22	The Role of Pain Self-Efficacy and Pain Catastrophising in the Relationship Between Chronic Pain and Depression	25/01/2022
2.22	Prediction of COPD patient outcomes using deep learning	25/01/2022
41.22	HAS TREATMENT WITH SODIUM-GLUCOSE CO-TRANSPORTER INHIBITORS IMPACTED ON CARDIOVASCULAR HOSPITALISATIONS IN SOUTH AUSTRALIA?	22/03/2022
23.22	Clinical variation of hand infections and their treatment between centres in Darwin and Adelaide	24/03/2022
47.22	Neoadjuvant therapy in left sided resectable pancreatic adenocarcinoma	25/03/2022
35.22	Machine learning natural language processing in the prediction of neurology outpatient triage and management	29/03/2022
44.22	The prevalence of chronic kidney disease in patients with pituitary tumours and impacts on outcomes following transsphenoidal surgery	29/03/2022
61.22	Incidence and management of asymptomatic blood pressure elevations in hospitalized patients	13/05/2022

71.22	CR4ALL- Cardiac Rehabilitation for All: A telehealth cardiac rehabilitation care pathway tailored to the needs and preferences of disadvantaged populations living with cardiovascular diseases in rural and remote Australia	06/06/2022
111.22	Clinical and economic validation of the International Study Group for Pancreatic Surgery (ISGPS) definition of Postpancreatectomy Acute Pancreatitis (PPAP) - an international multicentric prospective study	30/06/2022
113.22	Effect of trunk inclination on lung mechanics in patients on mechanical ventilator in ICU	06/07/2022
132.22	Agreement between point of care glucometer measurement and gold standard ABL gas machine measurement of plasma glucose.	27/07/2022
133.22	Risk factors for Liver Re-transplantation - a 30 year single centre experience	29/07/2022
131.22	Machine learning in the prediction of clinically significant general medicine workflows and outcomes	05/08/2022
129.22	Have maternal and infant outcomes worsened with changes in dietary education for women diagnosed with Gestational Diabetes Mellitus during the COVID-19 pandemic? – A retrospective case note audit.	19/08/2022
155.22	Referrals to the 'first seizure' clinic and impact of an epilepsy nurse	22/08/2022
160.22	Retrospective review of patient demographics and rehabilitation outcomes in geriatric home based versus inpatient rehabilitation	21/09/2022
175.22	Retrospective process and outcomes evaluation of SAHLN's Airway Clearance Service	23/09/2022
