SA Health Forward Procurement Plan

The SA Health PSCM team has developed an ongoing Forward Procurement Plan (FPP) in partnership with the full range of internal stakeholders throughout the SA Health network including Department of Health and Wellbeing, Local Health Networks, SA Ambulance Service, statewide services and clinical support services. A wide range of factors are considered in determining which projects will be subject to an open market process in the forthcoming period. These include procurement policy and strategy, contractual requirements, risk management and a data driven approach to understanding key areas of spend.

We have every intention to follow this Forward Procurement Plan, however we acknowledge that changes are always possible, please ensure to be registered on the SA Tenders and Contracts Website for updates: tenders.sa.gov.au

Sub Category	Procurement Name	Description	Expected Market Release Date	Expected Award Date	Date Current Contract Expires
