Healthy Food and Drink Choices

SA Health making healthy food and drink choices easier
SA Health... making healthy food and drink choices easier

SA Health aims to help all South Australians live healthier, longer and better lives.

One of the ways we’re doing this is by making it easier for you and your family to choose healthy food and drinks in cafeterias, kiosks, cafes and vending machines on all SA Health premises.

To encourage healthy eating and improve your health and wellbeing, we’re selling more healthy alternatives and stocking only a limited number of unhealthy options.

Food and drink choices at SA Health facilities

We’re selling more ‘healthy’ food and drinks – known as GREEN category food and drinks – because they offer you the most nutritional value.

We’re selling some ‘less healthy’ food and drinks – known as AMBER category food and drinks – because they offer you some nutritional value when consumed in moderation.

We’re selling less ‘unhealthy’ food and drinks – known as RED category food and drinks – because they offer you little nutritional value.
