Patient Information Sheet

Viral Hepatitis Nursing Support

SA Health has Viral Hepatitis Nurses to provide specialist care to South Australians living with hepatitis B or hepatitis C. The aim of the nursing program is to increase access to viral hepatitis care through the provision of treatment, support and integrated care in the community.

The Viral Hepatitis Nurses

The Viral Hepatitis Nurses are clinical practice consultants, working with major hospital services, general practitioners and in other primary health care settings to deliver care to the community.

Viral Hepatitis Nurses are located across the metropolitan area and can also provide care to people in country areas.

Services provided

Viral Hepatitis Nurses can provide:

- general information
- advice and assistance to GPs with patient work-up
- education and support for patients diagnosed with viral hepatitis
- streamlining of referrals and supporting patients when attending tertiary treatment centres
- support and guidance during shared care treatment management
- support and information post treatment.

This is a free service.
