Lead-aware gardening practices

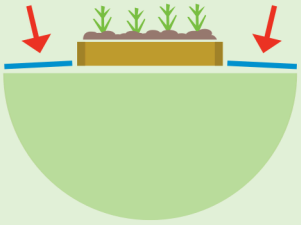
WASH ALL produce before eating

PEEL fruit and vegetables

REMOVE and discard outer leaves

USE raised garden beds with **CLEAN** soil

ADD organic matter



COVER bare soil

DON'T grow and eat leafy vegetables

DO:
> Wash ALL produce before eating
> Peel fruit and vegetables
> Remove and discard outer leaves of produce
> Use raised garden beds with clean soil
> Add organic compost matter that is not locally grown
> Cover bare soil
> Choose produce that has been grown outside of Port Pirie for a healthy balanced diet if you are pregnant or feeding young children

DON'T:
> Grow and eat leafy vegetables
> Grow produce around the drip line of home
> Use rainwater on vegetables

DON'T grow produce around drip line of house

USE mains water
