Percentage of secondary students aged 12-17 years who had ever tried* cannabis or who had used it in the last week**, South Australia, 1996-2014#

* Tried at least once in their lifetime
** Used at least once in the last week
# Comparisons between 2011 and 2014 should be interpreted with caution due to a methodological change in 2014 in how consent was obtained

Data sourced from: Alcohol and other drug use among South Australian secondary school students: Findings from the South Australian component of the 2011 & 2014 Australian Secondary Students’ Alcohol and Drug Survey
