## Section 2 – Your work

Are you currently employed (working for pay)?

Yes - If yes, are you:

Working full-time

Working part-time

No - If no, are you:

(tick **one** only, then go straight to **Section 3**)

Unable to work due to a condition other than pain

Unable to work due to pain

Not working by choice (student, retired, homemaker)

Seeking employment (I consider myself able to work but cannot find a job)

Please answer the questions below

**During the past seven days, how many hours did you miss from work because of problems associated with your pain?**

(Include hours you missed on sick days, times you went in late, left early, etc. because of your pain. *Do not include time you missed to attend this pain clinic*). ..... hours

**During the past seven days, how many hours did you actually work?**

(If '0' skip the next question and go to **Section 3**) ..... hours

**During the past seven days, how much did your pain affect your productivity while you were working?**

Think about days you were limited in the amount or kind of work you could do, days you accomplished less than you would like, or days you could not do your work as carefully as usual.

If pain affected your work only a little, choose a low number.  
Choose a high number if pain affected your work a great deal.

Consider only how much pain affected productivity while you were working

Pain had no effect on my work      0    1    2    3    4    5    6    7    8    9    10      Pain completely prevented me from working

CIRCLE A NUMBER

**Section 4 – Pain intensity and interference**

**On the diagram below, shade in ALL the areas where you feel pain.**

**On the diagram below, put an X on the ONE area that hurts most.**

**Please rate your pain by circling the one number that best describes the following:**

1. Your pain at its <i>worst</i> in the last week?	0 No pain	1	2	3	4	5	6	7	8	9	10 Pain as bad as you can imagine

## Section 7 – PCS

Everyone experiences painful situations at some point in their lives. Such experiences may include headaches, tooth pain, joint or muscle pain. People are often exposed to situations that may cause pain such as illness, injury, dental procedures or surgery.

We are interested in the types of thoughts and feelings that you have when you are in pain. Listed below are thirteen statements describing different thoughts and feelings that may be associated with pain. Using the scale, please indicate the degree to which you have these thoughts and feelings when you are experiencing pain.

	Not at all	To a slight degree	To a moderate degree	To a great degree	All the time
1. I worry all the time about whether the pain will end	0	1	2	3	4
2. I feel I can't go on	0	1	2	3	4
3. It's terrible and I think it's never going to get any better	0	1	2	3	4
4. It's awful and I feel it overwhelms me	0	1	2	3	4
5. I feel I can't stand it anymore	0	1	2	3	4
6. I become afraid that the pain will get worse	0	1	2	3	4
7. I keep thinking of other painful events	0	1	2	3	4
8. I anxiously want the pain to go away	0	1	2	3	4
9. I can't seem to keep it out of my mind	0	1	2	3	4
10. I keep thinking about how much it hurts	0	1	2	3	4
11. I keep thinking about how badly I want the pain to stop	0	1	2	3	4
