Useful resources and contacts for job applicants and new Country Health SA Employees.

This resource aims to provide useful contacts and information for job applicants and new employees to explore rural locations of South Australia, and learn about what our regional communities have to offer new comers.

The information is especially for those who may have no prior knowledge of regional South Australia, and who would like to venture out and experience living and working in one of our beautiful regional locations.

Listed below are links to community services, local government, tourist attractions, schools, universities, real estate agents and other services. More detailed information about specific locations is available from your Manager.

We also have a great collection of new staff video stories and testimonials of people’s experiences working in rural locations across South Australia.

To view the videos, visit the SA Health Careers page.
About Country Health SA

CHSA LHN is divided into six regions:

- Barossa Hills Fleurieu
- Flinders and Upper North
- Eyre and Far North
- Riverland Mallee Coorong
- South East
- Yorke and Northern
Country Health Connect

Country Health Connect focuses on delivering exceptional care to those living in our communities who need some support and assistance to remain living well and independent in their own homes, or who reside in one of our residential aged care facilities.

SA Directory of Community Services

SA Community

SA Community is a directory of South Australian community services. It includes information about government, non-government, community based and some private sector organisations that provide services for the South Australian community in the areas of health, welfare, housing, education, community participation, information, legal services, arts and recreation.

It also includes a list of churches and religious communities.
