- Impact of condition on patient’s quality of life (mild moderate severe)
- Preliminary investigations and results

Investigations Required

- Nil required

Fax Referrals to

- ENT Clinic Fax: 8374 4928

Red Flags

- Persistent hoarseness > than 3 weeks
- Dysphagia
- Lateralising symptoms
- Throat pain
- Otalgia (ear pain)
- Neck lump
- Past history of head and neck cancer
- Above especially in smokers

Suggested GP Management

Hoarseness/dysphonia

- If red flags, refer urgently
- Lifestyle measures for optimising vocal health i.e. hydration, cease smoking, reduce/avoid throat clearing, avoiding vocal strain

Globus

Same as hoarseness, with the addition of:
- Consider possibility of reflux and implement lifestyle changes plus medical therapy (High dose PPI plus Gaviscon Dual Action)
- Treat any post nasal drip with saline nasal rinsing plus topical nasal steroid spray
